 - This person who was interested did not want to run if the meetings are in-person and not virtual.

Past President: Kevin DeRuosi

- Kevin sent the Strategic Plan this morning.
- Kevin went over the Strategic Plan. See attached MASFAA Strategic Plan FY21-FY23
 - The plan is typically for 3 years. Kevin increased it to 5 years.
 - This will give the Executive Council time to work on the plan.
 - Everyone is good with the 5-year plan.
 - It allows for a longer projection and timeline.
 - Mission Statement changed. Before it was a one sentence.
 - The mission of MASFAA is to effectually serve the interest and needs of its membership and constituents through the coordination of financial aid information, programs and activities. MASFAA is committed to promoting professional preparation, success and appreciation of student financial aid professionals and our partners, and to facilitate communication, advocacy and growth within our field, our institutions, and our communities.
 - The difference between this mission statement and the prime mission statement is it is a little more encompassing outside of just the field of financial aid, you know, with, with talking about, because we do a lot of work for the communities.
 - And we do have other outside partners that we work with very closely, our lenders, local government facilities, community-based organizations, etc.
 - Vision Statement also changed.
 - The vision statement was also kind of beefed up
 - To be recognized as a model for leadership, innovation in financial aid and assisting our members to be prepared to handle the responsibilities of their positions in an informed, professional, and ethical manner, to participate actively in the accomplishment of the Association's mission and goals, and promote opportunities for equity in finding, access to, and success in, postsecondary education pursuits.
 - MASFAA Values were added to the Strategic Plans:
 - Education

- Diversity
 - Access
 - Integrity
 - Professionalism
- The five values encompass the mission and vision statement.
- Kevin asked if there is anything lacking in our values? Or additional values that we feel should be included.

 - Kevin mentioned that we are doing a great job at this.

- A lot better than five years ago and a whole lot better than 10 years ago.

 - We have a storage unit. We just need to put all the bins there.
 - We're going to get a truck or van to move all of the stuff from everyone's office.
 - MASFAA has a lot of history!
 - We need somebody to organize and curate all of this.
- Advocacy
 - Advocacy is about educating decisions, decision makers about the impact of public policy decisions, etc.
 - The goal is to provide resources and updates for members to empower them to advocate for themselves, students, and post-secondary institutions through education of the public at large.
 - Internal, regional, and national legislative involvement is a big goal.
 - Basically, to get out there and advocate for financial aid
 - Advocate for our students and get the message spread beyond our own financial aid offices and in higher education.
 - Utilize the Government Relations Committee to discuss hot legislative issues.
- Finances
 - A solid financial foundation takes care of you now while supporting our goals.
 - Not only to maintain but grow the financial stability of the association through financial planning assessment of our investment and expenditures, including the biannual review of reserves, annual operating budgets and investment strategies.
