When your FAFSA was processed, the Social Security Administration Database showed a mismatch with the information you provided on the FAFSA. This often happens when you have had a recent change in status. To help resolve this issue, we will need some information from you. Please be aware that this information is used only for financial aid eligibility purposes.

- I am a U.S. Permanent Resident. I am attaching an image of my unexpired Permanent Resident Card (both front and back of card are needed) or other documentation that shows my current status and A number.**
